Trade Quality Products

Automatic Pipe Laser with Screen Display

Code: 50025

The APL100 is designed for easy operation. The laser beam is clearly visible over a range of 200m. Push button symbols and commands are logical and easy to understand. Large, legible display is also backlit for poor light situations. All operations function from the remote control. The APL has a sealed and nitrogen purged aluminium body and is IP67 rated. The remote also has a metal body and is waterproof and rugged.

Automatic plumb line beam travel enables you to side align the beam at any height, set-up is quick and easy.

Kit includes APL100 unit, remote control, laser target, charger

Accuracy: +/- 5mm @ 100m.

Beam Diameter at 100m: 14mm
