

New General A3 Green Automatic Self-levelling (Horizontal & Vertical) Rotary Laser Level and Detector

Code: 70012

New to the General range, the General A3 Green is an automatic self-levelling rotating laser that does horizontal and vertical levels and has an easy to see green laser suited to any indoor application.

Motorised automatic electronic levelling for stability, the General A3 Green has 'out of level' Tilt alarm to indicate when the laser is disturbed and has good water and dust resistance (IP64). Speed control and scanning modes accessed via the supplied remote. The unit also has a 'sleep mode' so it can be put to sleep to save battery power when not being used even when wall mounted and out of reach.

Simply set up your wallmount or tripod, attach the General A3 Green and push the 'On' button, the unit self-levells in seconds and you are ready to work.

The detector has LCD front and back for easy reading as well as coarse and fine settings and comes with a staff clamp all supplied in a hardcase BMC for safe transportation and storage.

Kit includes unit, detector and clamp, remote, battery charger, enhancement glasses and two laser target.

Specifications:

Accuracy: $\pm 3\text{mm}$ @ 30m.

Range: indoors 25m, outdoor with detector up to 150m+ radius, (300m+ diameter).

Rotation Speeds: 0 (scanning), 300 & 600rpm

Battery: 16 hours.

Self-levelling range: $\pm 5^\circ$ or 9%

The General A3 Green is covered by a 2 year manufacturer's warranty against faults.

Suited to any horizontal and vertical levelling application including accurate levelling indoors for suspended ceilings and plaster as well as outdoors for stumps, floors, walls, decks, pergolas, landscaping, fencing and the like.
