

GENERAL

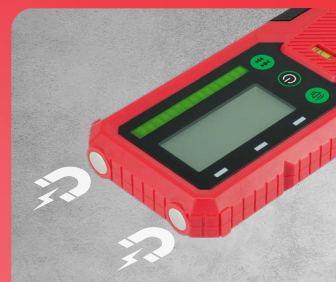

ML-3DXG

3D MULTI-LINE LASER LEVEL

Code: GML3DXGKT Barcode: 9331197004238

Millimetre detector for quick and easy adjustments with digital millimetre readout

Magnets for attachment to metal surfaces

Digital information screen showing active functions

Remote control for quick and convenient adjustments

GREEN LASER BEAM

3D MULTI-LINE LASER LEVEL

SELF-LEVELLING SYSTEM

1/4" THREAD

5/8" x 11 THREAD

LI-ION RECHARGEABLE

FEATURES

Ultra bright green laser beams for high visibility

Laser beam brightness adjustment (3x levels)

Self-levelling (pendulum)

3x 360° lines at 90° apart

Vertical plumb (crossline)

Manual grade / slope mode (tilt lock function)

Out of level alert

Multi-purpose mount with height adjustment and three fixing options: clamp, magnets and screws

Tripod mountable (5/8" x 11 & 1/4" thread)

SPECIFICATIONS

Accuracy

±1.5mm at 10m

Laser class

2 Green

Operating range

25m*

Operating range (with detector)

60m*

Levelling range

±3.5°

Battery life (per battery pack)

12 hours (max)

IP rating

54

*Maximum operating range can only be achieved in ideal light conditions. Sunlight and other ambient light sources can significantly impact the visibility of the laser beams.

ML-3DXG

INCLUDES

General ML-3DXG

Millimetre detector & clamp

Remote Control

Multi-purpose mount

Laser target & glasses

Lithium-ion battery pack

USB charging cable

Hard carry case
